FIGHTING TO PROTECT & EXPAND VOTING RIGHTS
Our rapid response media helped pave the way for expanded early voting, and our vote-by-mail petition, with more than 7,000 signatures, prompted a response from the Secretary of State that became part of a Texas Supreme Court case.

ABORTION RIGHTS ARE ESSENTIAL CARE
While Gov. Abbott tried to stifle abortion rights with back-and-forth lawsuits during a pandemic, we responded with messaging that abortion is essential, time-sensitive health care. Our efforts received media coverage statewide and nationally in the New York Times.

COVID RAPID RESPONSE MEDIA & ACCOUNTABILITY
The virus has been a problem and so has Gov. Abbott. When he banned mask mandates and blamed young people for COVID spikes, our counter-messaging was covered statewide and by USA Today (he eventually came around).

2020 ELECTION - GET OUT THE VOTE!
Our voter guide was popular because it focused on the most critical districts in Texas, and our non-partisan GoVoteTexas.org site helped people register to vote all year long.

MESSAGING TO BUILD PROGRESSIVE POWER
We helped establish the Texas battleground state narrative, generating enthusiasm and the highest turnout in Texas history. And after Election Day, our messaging told the story of resilience, protecting progressive gains, and the work that lies ahead.

RESEARCH & IN-DEPTH ANALYSIS
Our polling offered insights on the presidential primary, message guidance on police reform and Black Lives Matter, and our in-depth analysis of political news coverage sought to encourage more diverse sources in stories.

While campaigns come and go, Progress Texas is the permanent home for rapid response media and messaging in our state. For the more than 5 million Texans who voted for progressive policies this year, and for a stronger and more inclusive Texas, our work continues.
